

Reporting of incidents on Country Regional Network

This Safety Alert is being distributed to remind all persons who enter, or perform work on the Country Regional Network, of the requirements to report all incidents to Network Control.

While **all** incidents should be reported to Network Control, regardless of their impact to the operational rail network, the below incidents should be reported to Network Control immediately:

- actual or potential loss of life or injury, or actual impact to the Environment
- actual or potential damage to or defect in Network infrastructure, or
- damage to or defect in rail traffic, or
- a breach of Network Rules or Network Procedures

Contact Details of Network Control

Network Control Board	Normal Call	Public Free call
North West	02 4028 9501	1800 643 373
South West	02 4028 9502	1800 021 914
West	02 4028 9504	1800 427 198

NOTE: For emergency use only, you can call 1800 JHR CRN from any phone

To ensure the safety of all who use the network, please ensure that this safety alert is distributed to all staff, and contractors who perform work, or who enter the Country Regional Network
